JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

CALCUTTA.—Cholera, Plague, and Smallpox.

Acting Assistant Surgeon Allan reports, August 3:

During the week ended July 16 there were 14 deaths from cholera 18 from plague, and 1 death from smallpox in Calcutta; in all Bengal, 26 cases of plague with 36 deaths; in all India, 659 cases of plague with 561 deaths.

ITALY.**Measures to Prevent Exportation of Cholera through Emigrants.**

Chargé d'Affaires Montaglieri of the Italian Embassy at Washington reported August 21 to the Department of State that because of the outbreak of cholera now prevailing in the Province of Apulia the Italian Government is taking every necessary measure to prevent cholera-infected emigrants leaving Italy for America, that all emigrants from the infected zone are to be isolated during their railway journey from their point of departure to Naples, and that at Naples they will not be allowed to embark until after their clothing and effects have been disinfected and they have been bathed and have undergone a subsequent detention and isolation for 5 days under sanitary observation.
